

Solubor DF Compatibility test results.

Solubor DF 12kg/ha + Caramba 3.0 l/ha: physically compatible with continuous agitation.

Solubor DF 12kg/ha + Opus 2.0 l/ha: physically compatible with continuous agitation.

Solubor DF 12kg/ha + Folicur 3.0 l/ha: physically compatible with continuous agitation.

Solubor DF 12kg/ha + Proline 2.4 l/ha: Physically incompatible. Sediment on sieve.

For the physically incompatible one (Solubor DF 12kg/ha + Proline 2.4 l/ha), as required, Solubor DF rate has been reduced into 6kg/ha, then:

Solubor DF 6kg/ha + Proline 2.4 l/ha: physically compatible with continuous agitation.
