

# HOME AND GARDEN PRODUCTS USE GUIDELINES

## Mixing

Applicator	H&G product to be added	Amount of water to be added	Area treated
Watering can	15 ml	5 litres	25 square metres (5m x 5m)
Knapsack sprayer	24 ml	1 litre	40 square metres (5m x 8m)

### Watering can application

Put 2 litres of clean water into the watering can. Add 15 ml of H&G product to the water in the can and stir with a clean rod. Add more water to make up 5 litres of spray solution. Stir the contents of the can with the clean rod thoroughly before use. Use immediately after mixing.

### Knapsack Sprayer

Add 24 mls of H&G product to 1 litre of water to treat up to 40 square metres. Shake / agitate the mixture thoroughly before use. Use immediately after mixing.
